

PMSS have been offering cost effective solutions to the NHS for over 30 years.

So much more than just a label company

PMSS have offered quality product solutions to the NHS for over 30 years.

Custom printed pads are a new addition to our product range. Information printed onto the form can be copied onto an adhesive label which is then removed and placed on the patient's case note folder.

This offers a time saving and easy method of recording critical

information on Pressure Ulcers, Urinary Catheter Insertion and Patient Falls.

Both form and label can be sequentially numbered in order to provide a quick and easy referral system if required.

The forms can be collated and stapled into a suitable pad format.
