PMSS have been offering cost effective solutions to the NHS for over 30 years.

## So much more than just a label company

PMSS have offered quality product solutions to the NHS for over 30 years.

We never want to forget where we started; supplying LABELS! Labels are still the largest part of our growing business, plain, printed, sheeted, fanfolded and roll labels continue to form the core of our business.

Labels for variable printing continues to grow as the need for more information expands.

A4 sheet labels in 14, 16, 18, 21 and 24 per sheet make up a large part of our range, but we offer over 30 different configurations all available from stock.

Custom sheets are available in A5, A4 and A3 size with a range of different adhesives to suit your application.

Fanfolded labels for dot matrix printers are still held in stock, whilst the popular 70mm x 36mm, 2 across label continues to be used in large volumes by many departments.

If we don't stock it we will make it!
